UNITED WE STAND
COLLECTION

Director,

pleased to send you the specially designed Presentation Chest for your United We Stand® Collection.

Each ingot is hand-made from specially selected maple wood and finished with a fine lacquer to preserve the natural beauty of the grain. The lacquer is applied in the traditional manner - 12 coats, each polished to remove any blemishes, to build up a flawless finish. The interior of the chest is lined with soft dark blue velvet, an ideal background to display your stamp ingots. Your chest is finished with a secure cabinet lock, and the key is retained in a matching pouch for safekeeping.

The Presentation Chest is a colored layout card showing all the stamps featured in the Collection. Each ingot should be placed in the slot indicated on the card. This will keep them securely in place and display them to their best advantage. The horn lifting tool will assist in removing them for display.

Each gold-layered .999 fine silver ingot has a protective coating please use the cotton cloth when handling them, and grip the ingot by the perforated edges rather than the mirror-finish surface. The jeweller's cloth is provided to lay them outside the chest.

Following this advice will preserve the mint condition of your Collection while allowing you to enjoy the pleasure of inspecting the fine detail of the historic engravings.

Sincerely,
Tracy
