#### The 'Valores Declarados' Service.

This insurance service introduced in September, 1901 enabled paper money or valuable documents to be protected whilst being sent through the internal postal system.

All items submitted for this service had to be thoroughly secured with wax seals and details of the contents stated in writing on the outside of the cover. They were then sent by registered post.

The sender was issued with a receipt stating the weight and size of the envelope accepted, together with details of the value of the stamps on the cover.

An example of the type of receipt issued to the sender is displayed below. It is numbered 660 and was issued in Alcudia on 30<sup>th</sup> July 1941 in respect of an item sent to Barcelona.
